

UVision's Hero-30 Lethal Loitering Systems are in IDF Service

The Hero-30 lethal munition systems have been procured by Israel MOD and have already been successfully used in combat operations by various IDF forces

Israel, May 5th, 2020, [UVision Air Ltd.](#), a global leader in Loitering Munitions Systems of all sizes for a variety of missions, reveals that its high-precision, light-weight man-pack portable Hero-30 system is already in use by various IDF units. The Hero-30 have been procured by the Israel MOD and put to operational IDF forces use, after proving its highly advanced capabilities in an extensive process of evaluation, tests and trials, meeting strict IDF technological and operational requirements.

“Meeting the requirements of today’s new battlefield doctrines for combat operations in complex, dynamic environments is our goal. With a wide range of advanced, cost-effective technologies, the systems enable high-precision strikes with minimal collateral damage. Our range of lethal loitering solutions with their unique characteristics are becoming a core required capability of leading military forces worldwide and of the IDF in particular”, says [UVision’s](#) CEO, Maj. Gen. (ret.) Avi Mizrachi.

The Hero-30, developed and manufactured by [UVision](#), incorporates high level of precision attack and abort capabilities. These simple to operate systems allow front-line forces the ability to initiate operation, as well as to respond to any enemy target or threat that arises and eliminate it with pinpoint accuracy. The Hero-30’s on the move advanced capabilities include striking targets with high precision of tracking and lock-on, a last- second-mission-abort and re-engagement for a second attack attempt or change of target. Its versatile installment configurations (man-packed, vehicle mounted or stationary) make it perfectly suitable for diverse operational scenarios.

About UVision

[UVision](#) designs and manufactures innovative, cost-effective, unmanned loitering munition systems for customers worldwide. With cutting-edge technology and 30 years of extensive field experience by a professional management team, [UVision](#) delivers highly unique aerodynamic platform configurations. The Hero series is comprised of advanced loitering munitions systems (Hero-20, Hero-30, Hero-70, Hero-120, Hero-250, Hero-400EC, Hero-900, Hero-1250), designed for different missions at various ranges using warheads of various types. The company's solutions are tailored for unique flight qualities, precision attack munitions, advanced airborne guidance and navigation systems integrated with C⁴I stations.

Extensive R&D has yielded a versatile series of loitering munitions systems that are suitable for tactical and strategic targets – whether for short, medium or long ranges – and with a variety of warheads to ensure maximum mission effectiveness. With units deployed and field-proven by the Israel Defense Forces and other customers – including leading NATO countries – [UVision](#) is fully committed to providing its extensive network of partners and customers located around the world with high quality and fast-response support.
